Group ride guideline notice that was just emailed to members this week was reviewed. Short rides, in town routes do not need planning. Long distance routes; example 75- 100 miles one-way need to be planned for safety, nothing decided yet. Dave Kroll has been working on it.

Discussion of road captains having a list of phone numbers of all members. Or members get the road captain phone numbers before a ride gets started. Discussion to see if membership will share their phone numbers with other members. Possible creating a membership directory.
